

Chemical Inventory

- Barcode all primary (i.e., manufacturer-provided) containers of hazardous materials.
- Enter containers into the Chemical Management System at <http://CMS.lbl.gov> within 30 days.
- Note the CMS Guidelines in the Help Section of the CMS web application to determine what items need barcodes.
- Use Multi-Container Data sheets to inventory gas cylinders or large quantities of frequently used containers.
- Remove inventoried items from CMS when they are used, disposed, or sent to waste.
